4. The following is an examiner's statement of reasons for allowance: None of the prior art cited or reviewed by the examiner teaches or reasonably suggests creating pseudo-molecular ions and solvent ions in the vapor state and thereafter reducing the ratio of solvent ions to pseudo-molecular ions. The closest art, cited or reviewed by the examiner, JP 2001-353454 discloses reducing the solvent content after deposition on the substrate and not in the vapor phase and therefore such can not reasonably be interpreted to read on the claim as written.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
